Story 10 :	Edit customer details	Priority	
		Effort	3

As a	Customer
I want	To edit details
So that I can	Keep my details up to Date

Acceptance criteria	

Criterion i:

Given That the customer has already logged into the account and has been logged into the system and has navigated to the view account page.

When a customer clicks the edit details button and make some changes and clicks save

Then

- data should pass regular expression
- alert should appear stating the details have been updated
- Page should be redirected to the view account page

Criterion ii:

Given That the customer has already logged into the account and has been logged into the system and has navigated to the view account page.

When a customer clicks the edit details button and change something in wrong format (ex. phone number) and clicks save

Then

- Data should not pass regular expression
- system notifies that it is incorrect format
- page does NOT redirect
